EL CLAUSTRE ART GALLERY GIRONA

EL CLAUSTRE ART GALLERY FIGUERES

In 1982 we opened the first of our gallery group, in a space where the remains of an old Cloister of a 13th century convent are preserved.

From this first place, where the first exhibitions were held and where our path in the world of art began, we currently have four exhibition rooms, where individual and group exhibitions are regularly organized.

We also have an important and numerous art fund of original works, both by already established artists as well as by young promises whom we help in the beginning of their careers.

In our gallery all artistic disciplines and trends, from the most classic to the most current and contemporary, are represented, and we are governed by a single word,

QUALITY

The name of our gallery is

EL CLAUSTRE

Simultaneously with the activity of organizing exhibitions of our artists and for our public, throughout the years of activity as an art gallery, we have also promoted the expansion of art, with cycles of conferences, collaboration with museums and cultural entities, edition and presentation of art books, concerts, social and charity activities, where we have always had the collaboration of important personalities who participate in our project and who have supported us in our will to make our gallery more than just exhibition halls, and that it be a way to bring art closer to all those who want it.

One of these paths has been the constant work with a select group of architects, designers, decorators, etc., with whom we collaborate so that they can have the works of our collection and incorporate them into their projects, and that they can show them to their clients.

Our team of professionals with years of experience allows us to manage and process in an easy, safe and efficient way, the shipment of works of art to any place in the world, taking care of all the logistics processes so that our clients receive and enjoy their works of art.

We are at your disposal for any information or collaboration you want.

Best regards.

Mariano Mascort Yglesias
Director

Mr. Juan Antonio Samaranch, president of the International Olympic Committee with Montse Aguer director of the Dali Museum, and Mariano Mascort director of El Claustre Art Gallery
